

Green Jewel 50K March 5, 2016

Calories needed for 5.5 hours = $300 \times (5.5 - 1.3) = 1260$ C

Breakfast

cereal with water = 120 C

boiled egg = 80 C

energy bar = 210 C

Sub Total = 410 C

45 minutes before the run

Cliff Bar = 240 C

During the run

20 ounces defizzed Coke = 230 C

4 gels = 400 C

½ banana = 50 C

Sub Total = 680 C

Total = $410 + 240 + 680 = 1330$ C This is enough.

Electrolyte = 3 Salt Sticks

Fluids

Water: $4 \times 16 = 64$ ounces

Coke: $1 \times 20 = 20$

Total = 84 ounces or 2.7 ounces/mi which is okay for a cold day. On a hot day I would have had considerably more fluids.

AS1 means Aid Station 1
