Tim ran faster.

Tues 6/13/2017 **6.5 miles**

I describe below a 2 mile course that I call the "Hill Course" in case any local runners want to try it. I use this course every so often.

The bottom of Spring St near the entrance to the bypass is one of the lowest points in Meadville.

The top of Hamilton Rd near the entrance to the fairgrounds is one of the highest points.

The following path between these points is almost exactly 2 miles long.

up Spring and Prospect to Park, up Park to Allegheny, up Allegheny and Limber to Hamilton, up Hamilton to the highest point on Hamilton.

This path has almost a continuous rise, except for a ¼ mile stretch from the highest point on Limber Rd near the water tower to Hamilton Rd.

Where Grandview Ave meets Limber Rd is about the one mile mark (½ way) on the course.

The total ascent is **460 ft** (measured with Google Earth) for the 2 miles.

Today's workout: I warmed up by running 2 miles in about 20:00, rested 10:00 and jogged ¼ mile.

I did a 4 mile run. I started half way up on the Hill Course and ran 1 mile down to the bottom of Spring St. I turned around and ran the 2 miles up the Hill Course to the top of Hamilton. I turned again and ran 1 mile to where I started.

Splits: 1mile 7:32 (down hill), 2 miles 20:39 (up hill, total ascent: 460 ft), 1 mile 8:06 (down hill).

Total time 36:17 or 9:04/mile

I warmed down with a ¼ mile walk. It was about 80 degrees at the end of the run.

Wed 6/14/2017 **5.25 miles**

I walked and ran 5 miles on roads, grass and trails, and averaged 10:59/mile. The course was hilly.

I walked 10 times for a total of about 0.9 miles of walking. I warmed down with a ¼ mile walk.

Thur 6/15/2017 **6.25 miles**

I ran 6 miles on roads.

Warm up: I ran and jogged 2 miles mainly up hill including 8 short fast runs between telephone poles near the end of the run and then rested 3 minutes.

Run: I ran 1 mile on a relatively level road in 8:17 and then I jogged and ran a mile with 2 x 60 yd pick ups near the end. Again I rest 3 minutes.

Run: I ran another mile on a different relatively level road in 7:40. This mile was easier to run than the one I did in 8:17 because I needed the 4 previous miles of running and jogging to get my body ready for faster running.

Warm down: I jogged a mile and walked ¼ mile home.

Fri 6/16/17 **4.25 miles**

I ran on the high school track with Tim Dunn. It was 90 degrees so we drank Gatorade a few times and took relatively long rests and jogs between our ¼ mile runs. We stayed relatively comfortable. After a mile warm up jog, we ran 6 x ¼ mile with a ¼ mile jog between each run and a ½ mile jog at the end. For most of these runs Tim started 15 seconds after I did. Our running group usually does this when some runners are going to run faster than others. This way the faster runners have someone ahead to pull them along and slower ones have the others to run with near the end of the run.

My times on the ¼ mile runs: 1:54, 1:51, 1:46, 1:53, 1:50, 1:40
